### FOUND DEAD.

Sunday morning about 9 o'clock John Kubana and Mathias Meitzenslager found Joseph Swartz lying in the road near Ed Balhorn's house. Picking him up they carried him into Balhorn's stable and laid him down and went on, thinking he would get all right in a little while. At noon Mr Balhorn went to his stable and was horrified to find Mr Swartz cold in death. He immediately gave the alarm, but Swartz was beyond all aid.

The deceased was 65 years old and leaves a wife and two children to mourn their loss. His death was caused by the terrible heat of Sunday. The inquest was held by Squire Helweg, who rendered a verdict in accordance with the above facts.

We see that Columbus Walker has moved into the Nolan building and that Jim Baugh will occupy the place vacated by him. You may look out for something else to happen soon, too.

Friday night to Flatonia, but lo and behold there was no excursion to San Antonio. They tried to make believe that they went, but it wouldn't hold good.

Mr Editor, come up to the ball next Friday night at Moulton and listen to XX's staid band.

### SEVEN MILLION BALES.

In response to numerous inquiries from planters all over the South, Capt. Kolb, ex-commissioner of agriculture of Alabama, and one of the best posted men in the country on agricultural affairs, to-day issued an address to the cotton planters of the South giving his opinion of the crop. He estimates that the new crop cannot possibly reach 7,000,000 bales, and may fall below 6,500,000, which is far below the world's consumption for the next twelve months. He tells the planters that with proper management they can sell the crop for more than a ten million bale crop, and urges them to market no cotton during the next 60 or 90 days except for actual demand, believing that if they sold their cotton until November or December they will get 19c a pound for it. He advises curtailing the acreage next year, raise large food crops, and next year's cotton crop will
